

Name:

Grade:

Date:

Class Agreements

◆ Objective:

To come to agreements to keep the group's harmony.

◆ Materials:

- Kraft paper or cardboard sheet
- Markers
- Blank pieces of paper
- Pencils

◆ Instructions:

1. The teacher will assist the creation of a mental map with the class agreements with the class.
2. Divide the group in smaller groups of three or four students. Hand a piece of blank paper per group and ask them to write at least three actions to guarantee the harmony within the group. Give them time to discuss and come to agreements within the smaller groups.
3. Once the groups have their lists of at least three actions ready, they will share their conclusions with the group. Meanwhile, the teacher will take notes on the board based on their ideas.
4. On the center of the sheet of kraft paper or cardboard write the word "Agreements" and grad circle around it. From this word the lines of the different categories with the agreements will come out (one general word) and other smaller categories include the actions that must be adopted to guard this agreement.
5. The group may identify which agreements they would like to guard and out their names on it.
6. Place the mental map in a visible place to remind them of their agreements and compromises.

◆ Mental map example:

Andy
